

# STEP BY STEP LUX ALGO WINNING TRADE METHOD

**STEP 1:** Wait for a Lux Algo 'BUY' or 'STRONG BUY' signal

**STEP 2:** Verify your STOCH RSI

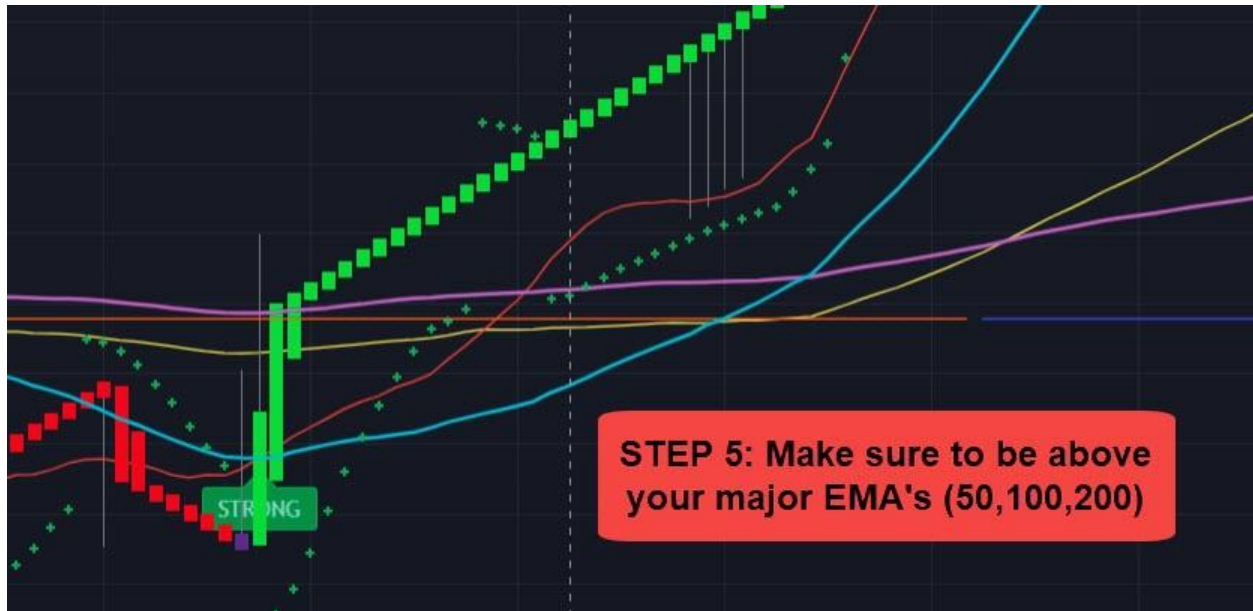

### STEP 3: Verify your MACD

### STEP 4: Make sure that the next level of resistance allows you to have enough wiggle room to make a profit

**STEP 5:** Make sure to be ABOVE your (50, 100, 200) EMA's

**STEP 6:** Make sure your SAR is showing an NEW uptrend

**STEP 7:** Make sure your STOCH RSI has not been 'OVER-BOUGHT' YET

**STEP 8:** If all the criteria above are met, BUY

**STEP 9:** ... And Sell when you see your SAR change trend (After the candle close)

**Disclaimer:** Please note that I am not a financial advisor and I cannot guarantee any earnings. This method works well for me and should work well for you as long as you don't skip any steps and leave your emotions out of the equation. Very often, people loose money in trading because of their emotions or because they get comfortable and start skipping steps. .

**BEST TIP ON EARTH:** Before putting real money on a trade, go in [Trading View](#) and practice, by rewinding past candles, and then practice. When you see you are winning your fake trades, then you will be ready to do it with real money.
